# HYDROTOOLS™ Solar Reels

MAKE USING YOUR POOL BLANKET, EASY!

## A REEL TIME SAVER

A solar reel makes using a pool blanket easy. It simplifies storage, and allows you to roll your blanket on and off in just minutes, without pulling, dragging, or folding. It's quick, easy and can be done with just one person.

Regardless of whether your pool is small or large, above ground, inground or semi-decked, there will be a reel style to suit. Your pool professional will be able to advise you on which reel best fits your budget and needs.

## WHY HYDROTOOLS?

The Hydrottools Solar Reel range comprises super-strong, yet affordable options for above and inground pools.

If an uneven pool surround is a challenge, some models feature unique adjustable legs, so that the reel tube stays parallel with the water surface.

Made with commercial-grade aluminium, they are lightweight and reliable, and won't deteriorate in our harsh climate. The extendable, anodised tube is easy to transport, plus it allows for an exact fit to ensure blankets roll on and off easily.

## ACCESSORIES

All Hydrottools Solar Reels come with adjustable blanket fasteners, a protective overcover and flexible fittings to make installing and using your pool cover and reel easy!

Other optional accessories include a Reel Castor Set, Dual Castors for larger loads, and a wheelbarrow style wheel kit which can be retro-fitted to an existing stationary reel.

## HYDROTOOLS™ ENDURANCE RANGE

All Hydrottools Reels come with adjustable tube lengths as standard. Or, a fixed length tube which does not adjust is available, if preferred.

### HRST & HRFM REELS INGROUND

HRST Stationary

HRFM Mobile

**Endurance HRST Fixed – Stationary**  
**Endurance HRFM Fixed – Mobile**

- Suits pools up to 6.1m wide
